About Us

America's Consumers & Affiliates Limited Partnership is a partner of Legend Platform, whose mission is to provide the American public the ability to earn part-time income through exclusive online marketing programs.

Why Join?

Helping Americans Earn Extra Income

As you're probably aware by now, your personal and private data is quietly being collected every time you browse the Internet, use an app on your phone, or even just TURN ON your phone. Your valuable data is then sold by phone makers, app and software developers, social media sites and other companies for billions of dollars each year. We believe this isn't right.

The Legend browser mobile app allows you to rate your experience of the websites you visit, with the possibility of being paid for your opinion, while keeping your site ratings for future reference. For each ad or offer you opt to view, you'll have the opportunity to be paid a majority percentage of the revenue generated by Legend for the ad.
